

MBA Program Objectives

MBA students are IBA's assets. We must continuously invest and add value in our assets. We will educate them by providing the best possible environment for learning and personal development. We will do it by developing their business acumen, preparing them for real life ethical dilemmas, conflicting decisions and paradoxes and developing them as competent and socially sensitive business leaders.

MBA Program Objectives

- 1 Business acumen, knowledge and skills of the business and management. With rigor of class room teaching and engagement with strategic level decision makers from local and global organizations.
- 2 Develop and groom competencies including communication and leadership by inculcating drive for success, disciplined, hard work with innovative as well as analytical problem solving skills.
- 3 Developing both the local and global mindset with national, regional and global business perspective by using case method and experiential projects within national and International organizations.
- 4 Foster entrepreneurial spark and mindset.
- 5 Develop ethical business leaders and not just managers.
- 6 Develop critical thinking, creativity, divergent thinking & team building skills.

MBA Program Outcomes

- 1 Develop an ability to make well informed decisions which are ethically sound and profitable in different organizational situations.
- 2 Appreciate the importance of social and environmental issues and dilemmas in business
- 3 Enhance value creation in personal and professional aspects with strong and proficient Interpersonal & teamwork skills, written, oral communication and listening abilities.
- 4 Utilize information, literary and computing skills to effectively prepare and present reports for various purposes.
- 5 Acquire field-specific knowledge and experience to process and interpret both strategic level and operational level processes and organizational systems.
- 6 Planning and implementation of different business and functional issues and agendas within the business organization.
- 7 Appreciate cultural sensitivity and diversity within a situation.
- 8 Understand opportunities and challenges of internationalization/ globalization, technology and social media on business.
- 9 Continuous engagement in professional development and personal effectiveness.
- 10 Understand & balance between the business and human factors while choosing among different alternatives

MBA Program Course Outline

Class Code:	54634
Course Name:	dfg
Class Type	dfg
Instructor:	dfgdfg
